

# CULLIGAN® BluSoda™ & WAVE Box

Office/Hospitality Undercounter Bottle-Free Water Cooler

**EXPERIENCE THE DIFFERENCE** CULLIGAN WATER CAN MAKE.

## PRODUCT BENEFITS

- Modern, space saving design
- Ice bank or dry cooling technology
- Premium sparkling water option
- Custom water filtration options

*Culligan Water*

## State-of-the-art performance with attractive Italian design

Wave and BluSoda undercounter bottle-free water coolers were developed with the highest level of quality, design and technology to deliver high-end performance with taps that will complement any office or hospitality setting. In addition to the outstanding 8 or 16 gallon per hour cooling capacity, a Culligan Bottle-Free cooler makes staying healthy and hydrated easier than ever by delivering convenient, on-demand cold, sparkling, ambient water.

Not only does Culligan offer a superior line of bottle-free coolers, but working with Culligan also means that you get the advantage of working with certified sales, installation and service professionals that have made Culligan a trusted leader in the water treatment industry for over 80 years.

# CULLIGAN® BluSoda™ & WAVE Box

## Product Features

- Modern design using high-quality stainless steel and aluminum
- Dispensing options – cold/ambient/sparkling
- Fast fill rate of up to 1 GPM
- BluSoda and Wave Models provide up to 8 and 16 gallons of cold water per hour, respectively
- Box units provide the same performance as the BluSoda and WAVE countertop models with added space saving benefits!
- Two high quality stainless steel tap options

## Cooling Options

### Ice Bank

High-end professional cooling technology ensures highest level of cooling performance, essential within the hospitality industry. Immersion of water and refrigerant coils in an ice bath provides reliable source of cooled water.

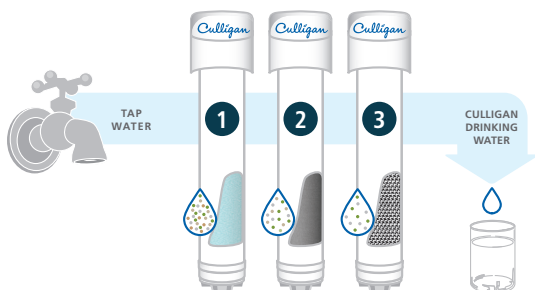

### Dry Cooling

Innovative direct cooling technology means a compact, space-saving design that chills water quicker and more efficiently than the standard cooling process.

BluSoda Box installed in cabinet.

## Filtration Options

- 1) **Sediment Filters** Filters out particulate materials such as dirt, sand, and rust.
- 2) **Carbon Filters** Reduces chlorine taste and odor. Helps protect the RO membrane.
- 3) **Third Stage Filter can be either:**
  - **Reverse Osmosis Filters** Reduces microscopic impurities such as arsenic, lead, sodium, and others.
  - or:
  - **Total Defense** Specialized carbon block that reduces cysts, lead, VOCs, MTBEs and others.
