Culligan Water

State-of-the-art performance with attractive Italian design

The Wave bottle-free water cooler was developed with the highest level of quality, design and technology to deliver high-end performance in a package that will complement any office or hospitality setting. In addition to the stunning stainless steel design and outstanding 16 gallon per hour cooling capacity, a Culligan bottle-free cooler makes staying healthy and hydrated easier than ever by delivering on-demand cold, sparkling, ambient or hot water at the touch of a button.

Not only does Culligan offer a superior line of bottle-free coolers, but working with Culligan also means that you get the advantage of working with certified sales, installation and service professionals that have made Culligan a trusted leader in the water treatment industry for over 80 years.

CULLIGAN® WAVE

Product Features

- Modern design using high-quality stainless steel and aluminum
- Dispensing options – cold/ambient/sparkling or cold/sparkling/hot
- Ice Bank cooling technology – high performance with energy savings
- Self diagnosing systems and alarm
- Energy-saving mode – standby mode at 75% of full operational energy
- Wave and Wave Hot models provide up to 16 gallons of cold water per hour
- Fast fill rate of up to 1 GPM
- The Hot model dispenses up to 2 gallons of hot water per hour at the perfect temperature (185° F)
- Optional stainless steel cabinet with inner brackets for mounting filters and the CO₂ cylinder

Ice Bank

- High-end professional cooling technology ensures highest level of cooling performance, essential within the hospitality industry.
- Immersion of water and refrigerant coils in an ice bath provides reliable source of cooled water.

Optional Cabinet

Filtration Options

- 1) **Sediment Filters** Filters out particulate materials such as dirt, sand, and rust.
- 2) **Carbon Filters** Reduces chlorine taste and odor. Helps protect the RO membrane.
- 3) **Third Stage Filter can be either:**
 - **Reverse Osmosis Filters** Reduces microscopic impurities such as arsenic, lead, sodium, and others. or:
 - **Total Defense** Specialized carbon block that reduces cysts, lead, VOCs, MTBEs and others.
